## Case Study 4: Student Academic Dashboard

**Overview**

A Student Academic Dashboard is a web application that brings important academic information together in one place. Students can review semester results, attendance, subject details, examination schedules, assignments, and announcements. A clear dashboard helps students monitor their progress, keep track of deadlines, and quickly find essential academic updates.

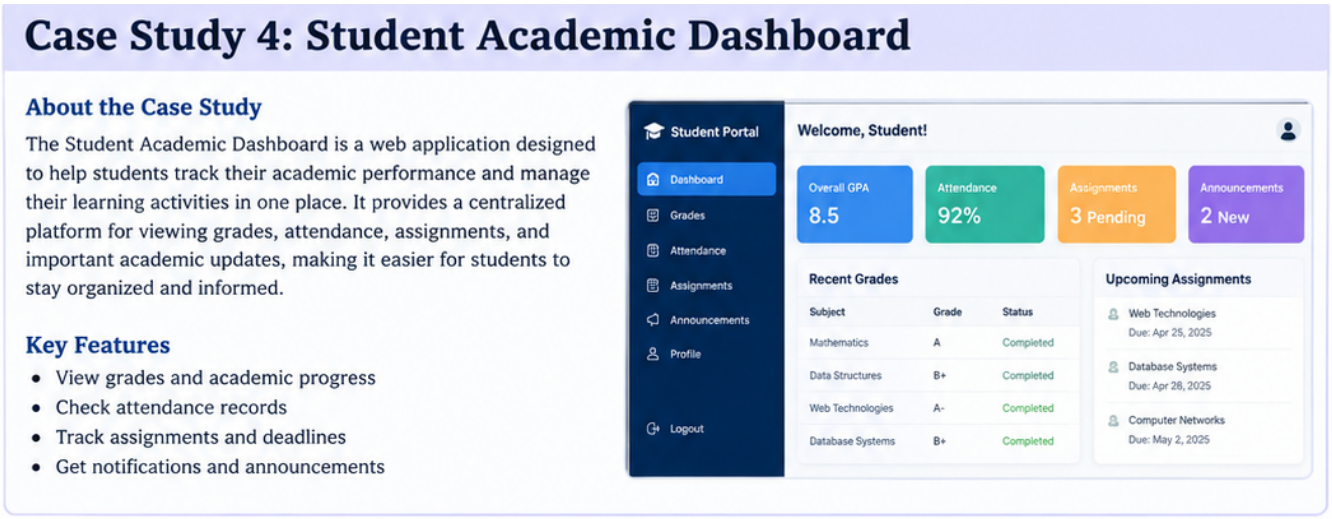

**Key features**

• View marks and semester results

• Monitor attendance percentages

• Check subjects and examination dates

• Read announcements and assignment updates

# Case Study 13: Fitness Center and Gym Website

**Overview**

A Fitness Center and Gym Website introduces visitors to the gym and its services. It can display workout programs, trainer profiles, membership plans, fitness facilities, and class schedules. A registration form allows users to express interest in joining or request more information, while responsive design makes the website convenient on phones and computers.

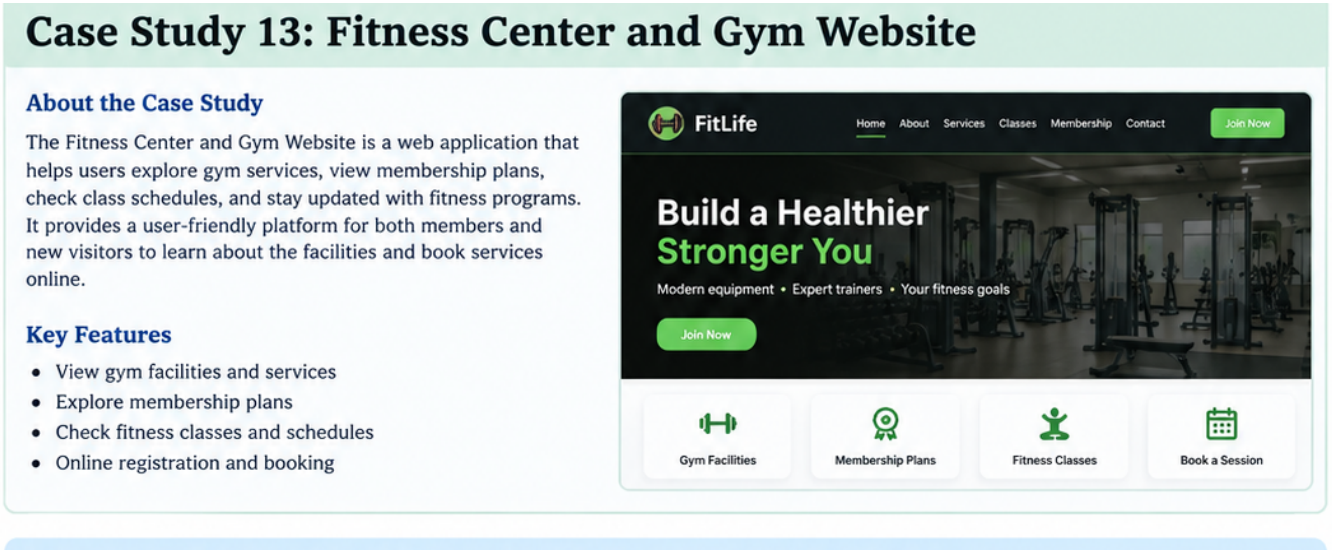

**Key features**

• Explore workout programs and fitness facilities

• View trainers and membership plans

• Check class schedules

• Register or enquire about membership

# Case Study 26: College Fest Management Website

**Overview**

A College Fest Management Website helps students and organizers coordinate technical events, cultural competitions, workshops, and other campus activities. It presents event descriptions, dates, venues, schedules, coordinator details, rules, and registration forms. Organizing this information in one place makes it easier for students to discover events and participate.

**Key features**

• Browse technical and cultural events

• View schedules, venues, and coordinators

• Read event rules and announcements

• Register for events and workshops
